Killing Them Off.

He was an influential business man to whom my husband was eager to sell. I had known him only about two weeks, but he liked to tease me, and I longed to retaliate. One evening he told me that he was living with his third wife, two others having died, and I said (shades of Solomon!): "My, but you are a lady killer, aren't you?"—Chicago Tribune.

APES HELP MEN TO OUTWIT AGE

Paris Doctor Says Grafting of Tissues Brings Back Youth.

EXPERIMENTS ARE SUCCESS

Interstitial Glands Are Taken From Apes for Use in Treating Human Beings—Operation Is Quite Simple.

Paris.—Restoration of youth is no longer an uncertainty, but by grafting of new interstitial glands is as sure as the rules of chemistry, Dr. L. H. Voronoff declared.

Dr. Voronoff, director of the physiological laboratory of the College of France, says the operations are simple. The interstitial glands are taken from apes for use in treating human beings.

"A local anesthetic is all that is necessary," Dr. Voronoff said. "It is merely a task of opening the skin, inserting the new tissue, sewing up the slight wound, and nature does the rest."

"Seven months ago," continued Dr. Voronoff, "I operated on a well known Parisian man of affairs, who at the age of 66 was in a decrepit state. The experiment was a complete success. Though his hair remains white and his face is wrinkled, he walks erect, his mind is as active and his appetite is as good as that of a young man."

Defies Age With Another.

"Three months ago I performed a similar grafting operation on another aged man. Everything in his case indicates the result will be the same, but it is too early as yet to give a statement as to his renewed vitality."

"The secret of my method is based on the following general knowledge: In various parts of the body, nature has provided glands which secrete fluids having vital functions in human organism. For instance, if I remove the thyroid gland from a man's neck, he will become an idiot within six months. Also when the interstitial glands, which manufacture fluid which is absorbed by the blood, and thus gives to the whole body its vitality, become worn out or are removed, the whole body falls into decay."

"Foreign tissues, which have thus been introduced into a worn-out system are nourished by the blood circulation of the body which is the new home for the tissues. In turn the tissues manufacture a vital fluid, which circulating through the body, restores its youthful vigor."

"Some of my most productive experiments were carried out on an aged ram. The ram at 14 corresponded in

age to a man at 78, in so far as the exhaustion of organisms is concerned. "Taking the aged, decrepit ram in May, 1918, I put into his body interstitial glands taken from a young ram. Within two months he had regained his youthful vigor and activities."

"Then, in order to prove it was not merely a matter of good care that had caused the change, I removed the grafted glands. I found them in perfect state, as they had not been completely assimilated by the renewed organism."

Age Reclaims Victim.

"The ram immediately aged and became even more decrepit than before. I once more introduced the glands from a young goat, which again produced youth and vigor."

"There will not be the slightest danger to human beings because of the monkey tissues which I use in treating them. A monkey's blood very closely resembles that of man. Hence the tissues of the ape are perfectly adapted for grafting on human beings. "There is no danger of thereby bru-

HELPS SOLDIERS TO SECURE JOBS

Bureau in Chicago Shows Good Record in Helping Discharged Men.

PLANNED BY GENERAL WOOD

Of the Men Seeking Employment 94.3 Per Cent Have Found It Through the Instrumentality of the Bureau.

Chicago.—From a report just issued by the bureau for returning soldiers and sailors and marines in this city, it is possible to get adequate information concerning what has been done in behalf of those of our returned defenders who have sought employment and other aid.

In the district of which Chicago is the headquarters, the plan of the bureau for giving assistance to discharged service men was formed by Maj. Gen. Leonard Wood, who acts as the chairman of the headquarters committee, and who from the first has taken personal interest in the work. The bureau was established last April and its records today show that 43,345 service men have registered at headquarters. Of this number 32,259 asked

Posed as Girl 22 Years: Paid \$100 for Deception

Harry Campbell, who said he had posed as a woman 22 years, was fined \$100 by Justice J. J. Shepard, at Kansas City, for impersonating a woman.

Campbell, who went by the name of Henrietta Campbell, gave himself up to the police because a man threatened to reveal Campbell's impersonation. In court Campbell wore a woman's dress and hat and would have passed for a woman except for the two days' growth of beard on his face. He said he had been a rooming-house keeper in many cities, posing as a woman.

talizing human beings. So far, my experiments in this direction are confined largely to rejuvenating worn-out organisms. I am convinced the idea is practicable. I do not guarantee I have found the solution for senile decay. My works are of an experimental nature, and I am continuing my investigations."

GERMANY SEEKS LOST TRADE

Would Regain Her Prewar Place in Commercial World—Cunning Is Shown.

Brussels.—Signs are not lacking here of the attempt being made by Germany to regain the place in the commercial world which she lost through the war.

Goods now in the market in Belgium are often typically German. They are supposed to have been introduced secretly into the country via neutrals such as Holland and the Scandinavian countries.

One outstanding feature of these goods, however, is the disappearance of the German trademark, but the German cunning does not halt at this. The imperial crowns are now replaced by American eagles in an attempt to make the goods pass off as American, while others bear British and French trademarks. The names of German firms are completely absent, but the manufacture is too typically German to go undetected.

CUTS BARLEY'S BEARD

Professor Performs Feat of Benefit to Farmers.

University of Alberta Agronomists Remove the Barb From Whiskers of Grain.

Edmonton, Alberta.—Trimming the beard of barley is the accomplishment claimed by the agronomists at the University of Alberta this summer. Specifically what they did was to attempt to remove the beard altogether, succeeding only in taking the barb out of the beard. This, it was declared, is of immense potential agricultural benefit.

It is the barb in barley that makes all the trouble in handling and feeding the grain, it is said, and unsuccessful efforts have been made for years both in Canada and the United States to remove the beard. But with

the barb gone the experts say the beard doesn't particularly matter.

If the claims made for the improved barley are borne out authorities hold it may become a staple variety of western Canada. Two varieties of barley are grown in Alberta—the two-rowed and six-rowed. The former is used for beer-making, but six-rowed barley is the chief crop of central Alberta for feeding purposes. It is a sure crop, favored in mixed farming regions, and yields from 40 to 50 bushels to the acre.

Aged Woman Dances.

Marion, Ind.—One of the features of the annual reunion of the Octogenarian Club of Grant county held recently at Matter Park, was the dancing of old persons. Mrs. Sarah Jones, ninety-one years of age, one of the oldest women in the county, danced as an orchestra played tunes she had heard in her girlhood.
